OTHER COMMENTS/Explanation of materials if any:

Please read and sign the next page of the application.

I am applying for the upper-division VAP Program for year: _____.

I have supplied a full and accurate record of my college and nursing transcripts (other than UNCG) to this application, as required for consideration for the upper division major. I agree to provide the School of Nursing and the University with updated transcripts for any courses not completed at the time this application is submitted. (Updated transcripts should be submitted as soon as courses have been completed and no later than the beginning of fall semester. You may reference this policy at <http://studentconduct.uncg.edu/policy/code/>). I understand I do not apply to the University until I have an unconditional acceptance to the School of Nursing.

I understand the criteria for admission to the major as published in the UNCG *Undergraduate Bulletin*, and that all requirements as listed in the *Bulletin* must be completed before beginning required nursing courses. In addition, I understand that registering for clinical courses is contingent upon the School of Nursing's receipt of a satisfactory evaluation of my physical and emotional health to practice nursing, documentation of required immunizations, and acceptable results of urine drug screening and criminal background check. (Students who are accepted to begin the upper division major will receive a form for their healthcare provider to use in recording satisfactory evaluation of physical and emotional health. They will also receive instructions for completing other clinical requirements.)

I understand there will be costs to bear as a nursing student that other students are not responsible for, to include: immunizations (i.e. – annual TB Skin Test, flu shots, and other required immunizations,) an evaluation by a physician, annual CPR certification, a urine drug screen, a criminal background check, liability insurance, a uniform, shoes and basic medical equipment. These costs are estimated to be \$400 - \$500 for the first year.

If admitted, I understand that the requirements for medical information, additional immunizations, criminal background check, and liability insurance coverage required for clinical nursing courses must be submitted to the School of Nursing by **June 1**. The required forms and information about these requirements and due dates will be made available to admitted students soon after being admitted to the VAP Program.

I understand that if admitted to the Upper Division, my clinical schedule may vary from week to week. I agree to attend clinical at the assigned times and that I will make any needed arrangements for childcare or other personal responsibilities. I also understand that my clinical schedule cannot be changed to accommodate work or other course scheduling conflicts.

If admitted, I understand that I will need to disclose fully any physical or emotional problems that would prevent me from safely completing the clinical objectives.

I understand that there are potential risks to my own health in practicing nursing, and that the School of Nursing recommends that I have health insurance.

I certify that the foregoing information is true and correct.
