

Plan of Study for Nursing Interest Students

The first two years at UNCG, students follow the plan below to complete the nursing prerequisites and general education (MAC requirements) in tracking to apply to the nursing program. Please refer to the BSN information sheet for a specific list of criteria to apply. Once admitted, students will begin taking NUR courses. We have one application process each year in the spring semester. Those students begin the program in the summer with NUR 210 and NUR 220/220L.
