Introduction and Welcome

About this Handbook

The University of North Carolina Greensboro (UNCG) School of Nursing (SON) provides this handbook to all students enrolled in any of the Advanced Nursing Education (ANE) Programs as a resource to be used during their graduate studies. The handbook begins with general information applicable to **all** nursing graduate students, followed by specific sections for each program. These sections introduce graduate students to the Concentration Coordinator for their program and provides relevant information for all concentrations.

The handbook is updated annually, and an electronic copy is available on the UNC Greensboro School of Nursing website. Much of the information is linked back to the SON or Graduate School websites.

The information contained in this handbook is for the following Advanced Nursing Education Programs:

- **Master's of Science in Nursing (MSN)**
 - Accelerated Master's Program in Leadership & Management (AMP)
 - Family Nurse Practitioner (FNP)
 - Leadership & Management
- **Post-Graduate Certificate**
 - Psychiatric Mental Health Nurse Practitioner (PMHNP)
- **Doctor of Nursing Practice (DNP)**
 - Post-Master's DNP
 - Post-Baccalaureate
 - Adult/Gerontological Primary Care Nurse Practitioner (AGPCNP)
 - Nurse Anesthesia

Accreditation

All nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

At times, information in this Handbook will apply to a specific concentration but will be noted as such.

This handbook is tailored to provide essential information for students enrolled in an ANE program. While efforts have been made to ensure accuracy and inclusivity, it may not encompass every policy of the School of Nursing and the University. Students are encouraged to consult the School of Nursing and Graduate School websites for comprehensive resources and policies. Additionally, assigned advisors and the ANE Department Chair are available to offer guidance and support for any required information.

Welcome from the Administrative Team

Hello friends,

UNC Greensboro is a unique place, and I am glad that you [found your way here](#). The UNCG School of Nursing embraces a rich history dating back to its early days as the Women's College. I am proud to be part of the Spartan family as the school's fifth dean of nursing and the first dean of color. Here we are committed to an **inclusive community**, where diverse perspectives, experiences, talents, learning styles, and backgrounds fuel our extraordinary passion in pursuit of the ultimate goal of providing the best healthcare for patients and their families. We are a team of **passionate people** that includes our faculty and staff, and we are

educators, scientists, practitioners, advocates, innovators, active-duty service members, veterans, and so much more. We are leaders! Our school is a place to find your way to a meaningful and rewarding career, whether through education or as a member of our team. **Innovative practices** are our norm, whether in our research, teaching/learning operations, active learning classrooms, online learning environments, skills and simulation labs, or through partnerships with our more than 700 clinical agencies in the community. All this culminates into our **extraordinary outcomes**. We have world-renowned faculty who are leaders in the field, staff who are among the best in their areas of expertise, and students who consistently demonstrate great success, such as high graduation rates, high licensure and certification pass rates, and great employment success. UNCG nursing graduates are highly sought after and are leaders in the field of nursing and healthcare.

This year, we are committed to a "Culture of Care" to facilitate student, staff, and faculty wellbeing. We have adopted the theme of "I CARE":

C – compassion

A – compassion needs action

R – reflection (what we learn to improve upon in interactions)

E – energy (it takes work to care, but it yields cultural energy and positivity)

Welcome to the UNCG School of Nursing! I CARE!

Debra J. Barksdale, PhD, FNP-BC, CNE, FAANP, ANEF, FAAN
Dean

Dear Graduate Students,

Welcome to the UNCG SON where you have chosen to take the next adventure in your academic journey. This handbook has been prepared as a resource manual for you so that you will have basic program and concentration specific information at your fingertips to promote your learning and to assist you to succeed in your chosen area of graduate nursing education. Your program faculty and I look forward to sharing your educational journey with you.

Along the journey of graduate nursing education, this handbook will provide a variety of resources to guide your success in the SON and University. Please take time to review the handbook and become familiar with the resources and policies that govern our graduate nursing programs. Even if you are a continuing graduate student, it is a good idea to review the handbook for any updates in resources and policies.

I wish you the best of luck in your nursing concentration. Feel free to reach out to your faculty or my office if you have any questions or concerns. We are here to help and support you! Have a great year!

Yvonne Eaves, PHD, RN

Senior Associate Dean for Academics and Professor

ydeaves@uncg.edu

Welcome, Welcome, Welcome...

It is my pleasure to welcome you to the University of North Carolina Greensboro Advanced Nursing Education (ANE) Programs! We are excited that you have chosen UNCG to obtain your graduate degree. We look forward to working closely with you to help you achieve your goals. Please keep in mind that you have committed to obtaining a higher degree that will require time and commitment to advance your current skill set. I want to assure you that our highly skilled and motivated faculty, Concentration Coordinators, and Administrative Staff are dedicated to assisting you on your journey toward your MSN, Certificate or DNP degree.

The courses are designed to help facilitate your transition to advanced practice and prepare you for your national certifications, academic, leadership, and advanced practice roles. We want you to succeed. If you find you need additional support, reach out to your faculty, Academic Advisor, Concentration Coordinator, or me, your Program Director. We are a team that is here to ensure your ongoing success!

Again, welcome, and I look forward to meeting all of you.

Sincerely,

Wanda M. Williams, PhD, RN, WHNP-BC, CNE, ANEF
Department Chair of Advanced Nursing Education
and Director of Graduate Practice Programs
wwilliams@uncg.edu

SON Mission

At the UNCG School of Nursing, we are taking giant steps anchored by transformation and focused on:

- Inclusive Communities
- Passionate People
- Innovative Practices
- Extraordinary Outcomes

SON Operating Principles and Practices

We have G.R.I.T.

Good Intentions and Good Will:

Assume best intentions in all interactions.

Practices:

- Listen generously first, do not jump to conclusions.
- Be aware of verbal and nonverbal communication.
- Ask, listen, verify, and confirm.

Respect:

Respect ourselves and others. Embrace and value all relationships. Engage in direct transparent, honest, and respectful communication.

Practices:

- Do not interrupt/talk over, everyone gets a voice.
- Do not gossip.
- Be committed to getting something resolved by talking directly within 24-48 hours.

Inspire:

Innovate and aim for excellence, be open to all possibilities (fun, joy, humor, challenges). Create an inclusive and supportive environment for learning (collegial, collaborative, innovative, supportive, learner-centered).

Practices:

- Include positive staff, student, and faculty stories in communications.
- Listen openly to new ideas and new possibilities.
- Organize, be involved, bring your full self to relaxing, fun school activities.

Teamwork & Unity:

Celebrate differences and foster unity. Value individuals, their expertise and contributions. Be committed to work outside of “comfort zones,” across boundaries of gender, race, ethnicity, sexual orientation, culture, religion, and disabilities.

Practices:

- Engage in shared governance.
- End every meeting with 5 minutes of acknowledgement.
- If you cannot resolve differences in a few emails (3), meet or call.
- Call out unacceptable behavior when witnessed.

[Academic Calendars](#)

The following information pertains to all ANE concentrations.

Academic Requirements

Grading Scale

Evaluation and Grading. All course assignments are graded according to the following grading scale. Students must receive a cumulative grade of at least **85%** to successfully pass the course.

Letter Grade	Grade Range	Grade Point Awarded
A	100 - 93	4.0
B	92 – 85	3.0 (*)
C	84 - 77	2.0
F	76 or less	0.0
(*) MUST maintain a cumulative GPA of 3.0 to remain in academic good standing in the graduate program.		

Good Standing. Continuing students must maintain a cumulative GPA of at least 3.0 in all graduate coursework at UNCG to remain in [Academic Good Standing](#).

For Advanced Nursing Clinical Programs (FNP, AGPCNP & Nurse Anesthesia only). Student Progression Policy related to failure of a course, refer to the [Clinical Graduate Nursing Programs Student Progression Policy](#).

Recommending Dismissal

Recommending dismissal of a student from a program is based on failure to maintain academic good standing or has not demonstrated an expected level of performance in academic work, including research tasks, or in other critical areas of professional conduct. At the point of recommended dismissal, the student will not be given additional opportunities to remediate the deficiency. Depending on the circumstances, recommended dismissal might follow a period of academic probation. In other cases, it might not involve probation.

[Academic Probation and Dismissal](#)

Any student whose cumulative GPA for all graduate courses falls **below 3.0** will be placed on Academic Probation, effective for the next term during which the student is enrolled.

A student will be academically dismissed from their program and will be ineligible to continue in the Graduate School for any of the following scenarios:

- Probationary status is not removed upon the completion of 9 semester hours after being placed on Probation;
- the student achieves a term GPA **below 3.0** while on Academic Probation;
- the Graduate School determines that it is not possible to return to Academic Good standing within the allotted credit hours for graduation;

- the student meets the criteria to be placed on Academic Probation more than once in the same program;
- the student earns three grades of B-, C+, C, F, or U, or any combination thereof;
- the student earns two grades of F or U.

Graduate School specific policies regarding attendance, distance learning, and student rights and responsibilities can be reviewed at this link: [Section I: Academic Requirements and Regulations](#)

Academic Integrity Policy and Student Code of Conduct

The School of Nursing adheres to the [Academic Integrity Policy](#) and students are encouraged to review the [Student Code of Conduct](#).

UNCG School of Nursing Policies

Process for Student Concerns and Complaints

The faculty and staff of the UNCG School of Nursing care about our students. We strive to provide the best educational experience possible but understand that concerns can sometimes arise. Below is the process to follow should you have a concern or complaint. The link to the UNCG Academic Regulations and Policies, found in the University Catalog, can be found at

<https://catalog.uncg.edu/academic-regulations-policies/>

The School of Nursing defines a formal complaint as a written Grade Appeal which is not resolved at the level of the instructor, a written notice of violation of university policy, or an Academic Integrity Board submission verified by filing the academic Integrity Violation Report Form. It is always best to first try to resolve the concern with the person immediately involved. If you have a concern with your faculty member, staff member, or another student, please speak to them first. Usually, concerns can be resolved with a conversation. If your concern arises with a preceptor or other employee of a clinical agency in which you are a student, please inform your faculty member immediately. If the concern involves a nursing classroom, lab, or clinical course, and the concern cannot be resolved by speaking with your faculty member, the next step would be to speak to the course lead faculty. It is best if the concern can be put in writing (an email is fine for this purpose). If your concern is not resolved at this level, the next step would be the Director of your program. If the concern is not resolved at this level, the next step would be to contact the Senior Associate Dean of Academics, and then the Dean of the School of Nursing.

Other Resources for Concerns and Complaints

If you wish to appeal a dismissal or an allegation of unsafe practice in the clinical area, you may appeal to the School of Nursing Appeals Committee. Information about this process can be found on the School of Nursing website under Academic Programs using this link <https://nursing.uncg.edu/academics/student-resources/documents-and-forms/>

The School of Nursing Appeals Committee does not hear grade appeals. If you wish to appeal a grade, first discuss your concerns with your instructor, and follow the reporting process described in the section “Process

for Student Concerns and Complaints. If still unresolved, the link to the University Grade Appeal process is <https://aas.uncg.edu/documents/students/GradeAppealPolicy.pdf>

If you wish to report sexual misconduct, here is the link to the relevant information: https://cm.maxient.com/reportingform.php?UNCGreensboro&layout_id=8

The Dean of Students Office is also a resource for any student having difficulty. The link to this office is: <https://sa.uncg.edu/dean/>

(Compiled September, 2019LPL; Revised January 2021)

Unsafe Practice Policy

The nursing faculty of the School of Nursing have an academic, legal, and ethical responsibility to prepare graduates who are competent as well as to protect the public and health care community from unsafe nursing practice. It is within this context that students can be disciplined or dismissed from the School of Nursing for practices or behaviors that threaten or has the potential to threaten the safety of a client, a family member or substitute familial person, another student, a faculty member, or other health care provider.

Student Awareness

All students are expected to be familiar with the principles of safe practice and are expected to perform in accordance with these requirements. Within courses, counseling and advising processes, and other instructional forums, students will be provided with the opportunity to discuss the policy and its implications.

Definition

An unsafe practice is defined as:

- An act or behavior of the type which violates the North Carolina Nursing Practice Act, Article 9 of Chapter 90 of the North Carolina General Statutes (NCGS 90-171.37; 90-171.44).
- An act or behavior of the type which violates the Code of Ethics for Nurses of the American Nurses Association.
- An act or behavior (commission or omission) which constitutes nursing practice for which a student is not authorized or educated at the time of the incident.

Investigation & Evaluation of an Unsafe Practice

When an incident occurs which a faculty member believes may constitute an unsafe practice, he/she shall immediately notify the student and instruct the student to leave the clinical setting. The faculty member will notify the Course Lead Faculty, Concentration Coordinator, and/or Program Director in the School of Nursing.

The course faculty, Concentration Coordinator and/or Program Director will investigate the incident within three working days to determine whether there are grounds for believing that an unsafe practice has occurred. If the incident is minor, the faculty member, in consultation with the person named above, may require remedial work or instruction for the student. If the incident is major, or serial in nature, the Program Director will notify the Dean.

The Dean, in consultation with the involved faculty members, will review the student's clinical performance evaluation(s), academic record and potential for successful completion of the major in nursing. Based upon this careful and deliberate review, a decision to reprimand the student, require withdrawal from the clinical course, or to recommend dismissal of the student from the School of Nursing will be made. The Dean of Nursing will send written notification of the decision to reprimand or to require withdrawal from the clinical course to the student. If the Dean of Nursing recommends dismissal from the School of Nursing, the recommendation will be forwarded to the Vice Provost for Graduate Education for approval and notification of the student.

Should the student wish to appeal the decision, the student will submit a written request to the School of Nursing Appeals Committee. The Dean of Nursing will provide to the Committee the accumulated documentation related to the issue. A request for an appeal should occur within seven working days of written notification of the decision from the Dean of Nursing or the Vice Provost for Graduate Education.

The Appeal Process

The Chair of the School of Nursing Appeals Committee will thereafter notify the student, the faculty member, Course Lead Faculty and Program Director as to the time and place for a hearing to determine whether an unsafe act or behavior occurred and, if so, what resolution to recommend.

The Committee will hold a closed hearing within ten days at which time the faculty member, Course Lead Faculty, and Program Director will be present and will provide documentation and other oral or written evidence regarding the incident. The student will be allowed an advocate/support person at the hearing; however, the support person cannot speak at the hearing and cannot be an attorney.

Following the factual presentation, the Committee will convene in executive session to determine whether an unsafe practice occurred and to recommend a resolution to the incident. The Committee will base its recommendation on the evidence presented at the hearing.

The Committee shall make its recommendation in writing to the Dean and forward pertinent documentation. The Committee may recommend the following remedies: no finding of an act of unsafe practice; a reprimand to the student; or dismissal from the School of Nursing major.

Post Hearing Process

The Dean of Nursing may accept, reject, or modify the Committee's recommendation. The Dean's decision will be made after review of the minutes of the hearing and report to the Committee. If the Dean of Nursing accepts the Committee's recommendation to dismiss the student from the School of Nursing, the recommendation will be forwarded to the Dean of the Graduate School who will notify the student. The Dean of Nursing will notify the faculty member(s) as to the determination. A student who has been dismissed may reapply for admission to the School of Nursing.

Student Procedure for Needlestick or Bloodborne Pathogen Exposure

When there is a parenteral (i.e., needle stick, puncture, or cut) or mucous membrane (e.g., splash to the eye or mouth) exposure to blood or other body fluids, the student is to follow the procedure below.

1. Wash the skin exposure site well with soap and water. Flush eye or mouth with water. Avoid using damaging substances such as bleach. Do not bleed tissue. Rinse well.
2. Inform the Faculty member, who will advise you.
3. Inform the Nurse in charge of the clinical unit.
4. Follow the employee needlestick or bloodborne pathogen exposure protocol/policy of the workplace/institution where the event occurs. Most institutions will arrange to draw and test source blood and provide de-identified test results to the student at the time of the incident. The student should take these results to a health care provider to be evaluated for potential treatment.
5. Inquire about the need to complete necessary incident or agency reports. Schedule a completion time for these reports with the agency. This may be as soon as possible following the exposure or at a later date, based on exposure risks.
6. The student should obtain medical consultation and evaluation as soon as possible. This could be at the Emergency Department of the health care agency where the incident occurred, at the student's own health care provider, or UNCG Gove Student Health Center (336-334-5340). It is preferable to obtain the medical care/consultation where the event occurs, since time is an important consideration if treatment is necessary, and institutions have access to post-exposure medications and source information that the student's primary care provider or the Gove Student Health Center may not.

Be sure to have as much of the following information as possible available for your health care provider:

- Date and time of exposure.
- Details of the incident: where and how the exposure occurred, exposure site (s) on the student's body; if related to the sharp device, the type and brand of device.
- Details of the exposure: type and amount of fluid or material, severity of exposure.
- Details of the exposure source (obtained from the health care agency where the exposure took place)
 - HIV+, HBV+, or HCV+
 - If HIV infected, stage of the disease; CD4 cell count, HIV viral load, history of antiretroviral therapy & antiretroviral resistance information.
- Details about the exposed student
 - Hepatitis B vaccination and vaccine-response status (titer)
 - Other current medical conditions
 - Current medications and drug allergies
 - Pregnancy or breast-feeding

If the health care agency is unable to provide the student with source blood information, the Public Health Law (NCAC 41A.0203) can compel the screening of the source patient. Advanced Home Care should be contacted to perform the necessary blood draw from the source patient. The health care provider caring for the student should provide an order for the lab tests, and a release form for the source individual to complete so the results can be sent to the provider. The student is responsible for any cost related to obtaining the blood specimen and may need to provide insurance information to Advanced Home Care.

7. Inquire about the need to complete necessary incident or agency reports. Schedule a completion time for these reports with the agency. This may be as soon as possible following the exposure or at a later date, based on exposure risks.
8. The clinical faculty will notify the nursing program director of the exposure, who will inform the Senior Associate Dean for Academics.
9. The student, with assistance from their clinical faculty, will complete the required form and submit it to the OSHA Trainer for tracking. Neither the clinical agency nor the University is responsible for

the cost of the care that is involved in the treatment, management, or surveillance of exposure to blood or body fluids.

Approved 05/2018

Clinical Requirements

Clinical Placement

Clinical sites and preceptors will be identified and secured *before* the start of the clinical practice component. Preceptors will undergo a thorough vetting and approval process. Students are expected to maintain professionalism throughout the clinical placement process and during clinical practice, including but not limited to: Arriving on time, communicating effectively, and adhering to professional dress standards (e.g., wearing a lab coat). Students may not refuse a site placement unless they have secured an alternative, appropriate clinical site that has been approved by the Concentration Coordinator at least two weeks before the start of the semester.

Every effort will be made to place students at sites close to their residence, however please note, *the primary placement areas for clinical sites are **within a two-hour radius of the UNCG** and Union Square campuses.* Students who fail to begin their clinical practice at the designated time or do not report to the clinical site as scheduled may be subject to removal from the program.

It is the **student's responsibility** to respond promptly to all emails (*UNCG emails only will be used*) and other correspondence related to clinical placement and program requirements.

Attendance

Classroom and practicum attendance is expected according to established classroom hours and the practicum contract established with clinical agencies. Unexcused absences are unacceptable. It is the **student's responsibility** to initiate a request for make-up work missed because of excused absences. Absences (excused or unexcused) may jeopardize the student's ability to pass the course and progress in the major. [See Vacation and/or Personal Events.](#)

The following are excused absences:

- Verified illness of the student or a dependent family member
- Death or funeral in the family
- Court appearance
- Military obligations

Vacations and/or Personal Events

The [University's Academic Calendar](#) is posted 3-years out and is publicly available for viewing, therefore we asked that students review the academic calendar to plan personal events and vacations that will not interfere with scheduled class times. Absences from classes and/or clinicals that are **not excused** will result in point reduction or grade penalties as described above. **Notifying faculty that you will be on vacation is NOT an excused absence.**

Labs and simulation dates that are critical and essential before a student can be placed in a clinical site must be made up at a date and time scheduled by the faculty and will require additional scholarly assignments.

Failure to make-up such sessions and assignments can result in delayed progression or dismissal from the program.

Other

Permission to miss class or clinical for other reasons (personal reasons) is obtained from the instructor on an individual basis. If possible, missed clinical/practicum time will be rescheduled. See [Course/Clinical/Practicum Attendance](#) above.

Notification

Students are expected to notify their clinical faculty **and** their preceptor for any absence at least 24 hours prior to the start of class or clinical day. Students should refer to the syllabus of the course regarding any penalties associated with absence or extreme lateness.

Professionalism in the Clinical Setting

Any **inappropriate behavior** at a clinical site may result in removal from the site and/or dismissal from the program. Any violation of the North Carolina Board of Nursing Regulation as a registered nurse and/or violation of the *Nurse Practice act* will result in **immediate** dismissal from the NP/anesthesia program.

All students are required to consent to a background check and drug/alcohol screening. Any issues or violations could result in dismissal from the program. The required forms below will be sent from the Clinical Placement Coordinator and must be completed prior to the start of classes.

- Assumption of Risk
- Clinical Clearance Forms
- Immunization Record

Course Substitutions/Electives

If you need an elective or a course substitution, review the [Electives or Course Substitution-Graduate Level Course Guide](#).

Independent Study

Applications for independent study must have the approval of the instructor, the department head or dean, and the Dean of the Graduate School. No more than 15 semester hours of independent study may be included in the plan of study, exclusive of the dissertation. Students may not register for Independent Study as a substitute for existing courses. The student and faculty must notify the ANE Program Director prior to registering for an Independent Study course. The ANE Program Director will make sure sections for the course are added to the student's Plan of Study. Once the section of Independent Study is added to the schedule, two forms must be completed to register for Independent Study (NUR 792).

- Students must complete a Permission to Register for Independent Study form. This form is available online at <https://grs.uncg.edu/forms/#1554749460692-6deace4b-4ba5>.

1. The student is responsible for obtaining the signatures of the instructor and the Doctoral Program Director. The Doctoral Program Assistant will submit the form to the Graduate School. Registration for Independent Study is different from registration for other courses. Students do not register themselves for Independent Study during registration. The ANE Program Director or the University Registrar's Office will register the student for the Independent Study once the completed form is received by their office from The Graduate School.
-

Advanced Nursing Education Programs

Plan of Study & Methods of Course Delivery

A link to Plans of Study outlining the sequence of courses to be taken for each concentration can be found under each concentration section in this handbook. Any deviations from the plan of study must be approved by the student's advisor and the ANE Program Director. Any change to the plan of study may result in a significant delay in program completion.

The plans of study also include the method of delivery for every course. Courses within the ANE programs are offered in several formats – face-to-face courses, fully online (asynchronous or synchronous), or hybrid (alternating between campus and online courses). To maximize use of time, the Post-BSN AGPCNP and MSN-Family Nurse Practitioner programs typically schedule campus courses for a full day, once a week. The Post-BSN Nurse Anesthesia classes and clinicals require full days for most days of the week. The Post-Master's DNP and MSN Leadership and Management concentrations are fully online.

Asynchronous vs Synchronous Online Courses

What is an "asynchronous" class?

An asynchronous class refers to a class where students access course materials—lectures, readings, and assignments—on their own time. Asynchronous courses are **self-directed independent** learning based around your own schedule. There is no set time or date for the class, however, the intent is that students will pick a day and a time slot for them to access and complete course material each week based on their individual schedules. Students are still required by the University to complete the required credit hours per week to receive full credit for the class. Therefore, in a 7-day week, students need to identify a time and date around their schedule to complete the required weekly activities and assignments for the class.

What is a "synchronous" on-line class?

Synchronous on-line classes or learning refers to courses conducted in real time, with students and instructors attending together at a set designated time, but remotely. In synchronous classes, students interact and engage with the faculty and their classmates as if they were face-to-face, but the class is conducted virtually at a set date and time. *For example*, faculty and students would meet remotely every Thursday evening from 5:00pm – 7:00pm for 15 weeks. Students are required to sign-in every week at the designated time for class lectures and discussions with cameras on. The meeting time for synchronous classes will be indicated within the campus catalog prior to registering for the class, similar to traditional face-to-face classes.

Registration

Prior to the beginning of each semester, students have the opportunity for early registration for course enrollment. Registration dates can be found here: <https://reg.uncg.edu/registration/>. To register, you must have your student ID and personal ID as well as an advising code for each registration period. All registration, including drop/add, is conducted online. The generic advising code changes each semester. Students are encouraged to contact their advisors before registering for courses. The Registrar's Office sends emails to all students reminding them of registration periods.

Students can also contact their concentration's Administrative Support Specialist for assistance with or for information about registration including their individual advising codes. Matriculating students are guaranteed a seat in their required courses if they have followed the registration procedures and adhered to the course timing in the plan of study. If a student does not take a required course during the semester it is listed in the plan of study, completion of the program may be delayed.

Health and Certification Requirements

IMPORTANT: The School of Nursing requires that all nursing students have health insurance coverage. Criteria for all undergraduate and graduate students to be eligible for the Student Health Insurance Plan include:

- Enrolled in a BSN, MSN, DNP, or PhD degree program at UNCG.
- Enrolled in at least 3 hours of nursing courses.

A student who meets the above criteria must:

1. Enroll in the Student Health Insurance Plan each semester prior to the beginning of the semester.

OR

2. Prove you have outside health insurance each semester by submitting an on-line waiver to Student Blue that shows evidence of existing creditable health coverage, or later you will be enrolled into the Student Health Insurance Plan by default and the premium will remain on your student account.

Student Research and Graduate Assistantships

The School of Nursing offers research and graduate assistantships; some assistantships are matched with tuition waivers. These assistantships involve working with faculty in scholarly or other endeavors for ten, fifteen, or twenty hours per week during the academic year. Students working for ten or more hours per week qualify for health insurance coverage. Requests for applications for assistantships may be obtained from the Doctoral Program Assistant (phone #) 336-334-5289) and should be sent to the Doctoral Program Assistant by April 15th to be considered for the following year.

Below will start specific information and requirements for each concentration.

Master's in Nursing (MSN) Programs

MSN Leadership & Management

Dr. Wanda Williams, PhD, RN, MSN, WHNP-BC, CNE, ANEF
Director of Graduate Practice Programs
Interim Concentration Coordinator

Email: wmwilliams@uncg.edu
Office Phone: 336-334-3431

Union Square Campus, Room 254P
124 East Gate City Boulevard
Greensboro, NC 27406

General Information

Advisors

An academic advisor is assigned to master's students upon admission to the graduate program. In most cases, the advisor is a graduate faculty member who has a similar academic focus. The advisor will provide academic guidance for the student throughout the program of study.

Due to North Carolina law and other rules governing nursing education practice as well as state laws governing education delivery in every state, it is your responsibility as the student, to inform your academic advisor immediately if you do not currently live in North Carolina or if you move your actual residence (not necessarily your "legal residence") during the program. Depending on where you live, this may affect your ability to complete the program. An additional tuition fee is applied to a student who resides outside of NC and is a legal resident of NC, or one who resides outside of NC and is not a legal resident of NC. Out of NC or out-of-state tuition charges will be applied in these circumstances.

[Access MSN program's Plan of Study here.](#)

The School of Nursing offers a graduate concentration in Nursing Leadership & Management leading to the Master of Science in Nursing (MSN) degree. The program is offered in an online format only and is designed for working registered nurses. There is a **required on-campus** orientation in August prior to the beginning of the classes that **first-year** students must attend. Notification of the specific orientation date will be sent to you at least four weeks in advance.

[Post-Baccalaureate Certificate Program](#) provide the opportunity for Baccalaureate-prepared registered nurses to further their knowledge in Nursing Leadership & Management. All courses are offered online and are designed for working professionals.

MSN Leadership & Management Student Program Goals

1. Perform as advanced nurse clinicians, educators, or administrators according to standards of practice.

2. Assume leadership roles in promoting quality nursing and healthcare regionally and globally.
3. Utilize evidence to improve nursing practice and healthcare outcomes.

MSN Leadership & Management Learning Outcomes

1. Apply knowledge of self, uniqueness of individuals, families, groups, and communities, in their environment.
2. Analyze the impact of the environment on persons in a variety of settings.
3. Apply an advanced body of knowledge and skills in nursing management, nursing education, or clinical nursing practice to diverse individuals in a variety of settings to promote health.
4. Appraise the influence of the wellness, illness, disease, and dysfunction components of health upon specific target populations of individuals, families, groups, and communities.
5. Evaluate applications of the inquiry process to nursing practice to promote high quality, safe, and effective care.
6. Demonstrate the art of caring in the specialist's role of nurse educator, nurse manager, or nurse clinician.
7. Practice as a nurse specialist in promoting the well-being of diverse individuals in a variety of settings.

Student Academic Progression

The MSN program is required to be completed within 5 years from the time of entry. The MSN Nursing Leadership & Management concentration is designed to be completed in 6-7 semesters of part-time study (5-8 credit hours).

MSN Family Nurse Practitioner (FNP)

Dr. Autumn Henson, DNP, APRN, GNP-BC, WCC
Program Director of Nurse Practitioner Programs
Assistant Clinical Professor

Email: anhenson@uncg.edu
Office Phone: 336-315-7412

Union Square Campus, Room 254N
124 East Gate City Boulevard
Greensboro, NC 27406

[Access the FNP program's Plans of Study here.](#)

The FNP concentration has both full and part time plans of study. There is a required orientation in August prior to the beginning of the classes that students must attend. Notification of the specific orientation date will be sent to you at least four weeks in advance. For the first year both FNP and AGPCNP students will take classes together when possible due to the overlap in general NP skills and knowledge. Courses specific to the various specialty will be delivered separately.

Full-time students will begin clinicals during their 2nd semester of study. Prior to the start of direct care clinical experiences, students must have passed courses in Advanced Health Assessment and Diagnostic Reasoning – NUR 713 and NUR 713L, Pathophysiology – NUR 708, and Health Promotion, Disease Prevention, & Population Health – NUR 810. During the Health Assessment and Diagnostic Reasoning Skills lab, students will participate in simulation exercises, practice skills, and must demonstrate competency in performing a head-to-toe physical assessment, and pass skills checkoffs.

MSN FNP Student Learning Outcomes:

1. Evaluate evidence-based and best practices to design, manage, and evaluate comprehensive person-centered care that is within the regulatory and educational scope of practice with emphasis on primary, rural healthcare and gender affirming care.
2. Apply an advanced body of knowledge and skills in nursing practice to diverse individuals across the lifespan in a variety of settings to promote health.
3. Appraise the influence of the wellness, illness, disease, and dysfunction components of health upon individuals, families, groups, and communities.
4. Evaluate evidence that may be applied in nursing practice to promote high quality safe and effective care.
5. Practice as an advanced practice nurse to promote the well-being of individuals, families, groups, and communities in a variety of settings.

Student Academic Progression

The FNP-MSN program can be completed within 2 years (5 semesters) full-time; the part-time plan of study can be completed in 3 years (7 semesters). Students must complete their degree from the point of entry within 5 years.

Post-Graduate Certificate Program

Psychiatric Mental Health Nurse Practitioner Post-Graduate Certificate (PMHNP)

Dr. Autumn Henson, DNP, APRN, GNP-BC, WCC
Program Director of Nurse Practitioner Programs
Assistant Clinical Professor

Email: anhenson@uncg.edu
Office Phone: 336-315-7412

Union Square Campus, Room 254N
124 East Gate City Boulevard
Greensboro, NC 27406

[Access the PMHNP program's Plan of Study here.](#)

The Psychiatric Mental Health Nurse Practitioner (PMHNP) Post-Graduate Certificate is for current Nurse Practitioners (NPs) who are interested in specializing in psychiatric and mental health care. It is designed to be completed in 4-semesters beginning in the fall semester and ending in the fall semester of the next year.

The PMHNP Post-Graduate Certificate requires a minimum of 23 credits and 510 clinical hours focused on PMHNP practice. Students will also receive credit via a GAP analysis for at least 300 clinical hours from their previous NP program that they completed, ensuring their total clinical experience aligns with the 750-hour recommendation by the National Organization of Nurse Practitioner Faculties (NONPF) for NP practice.

Doctor of Nursing Practice (DNP) Programs

DNP Student Program Goals

The Doctor of Nursing Practice (DNP) degree offered by UNC Greensboro School of Nursing prepares graduates to analyze systems of care and provide transformational leadership that will improve patient safety, quality of care, and implement evidence-based and culturally competent care practices. Graduates from this program will be able to interpret and apply research findings to practice settings, determine and measure system and population outcomes, manage information systems, and use appropriate technology for health and risk communication. Our goals are to contribute to the advancement of the discipline and profession of nursing, to lead in the delivery of optimal health care and patient advocacy, and to appraise evidence to improve nursing practice and health care outcomes.

DNP Program Outcomes

1. Use advanced knowledge and skills to lead change in complex clinical practices and healthcare delivery systems.
2. Address healthcare resource gaps in care for the underserved, uninsured, vulnerable, and geographically isolated.
3. Advocate for equity and lead systemic-level change through policy, care delivery enhancements, and population-influencing interventions.
4. Advance nursing through ongoing development, educating others, and serving as social justice advocates for health and well-being.

The [AACN Essentials](#) outline the necessary curriculum content and expected competencies of graduates from baccalaureate, master's, and Doctor of Nursing Practice programs. Immersion hours should be based on the sub-competencies of the Essentials.

- I. Scientific Underpinnings for Practice
- II. Organizational and Systems Leadership for Quality Improvement and Systems thinking
- III. Clinical Scholarship and Analytical Methods for Evidence-Based Practice
- IV. Information Systems/Technology and Patient Care Technology for the Improvement and Transformation of Health Care
- V. Health Care Policy for Advocacy in Health Care
- VI. Interprofessional Collaboration for Improving Patient and Population Health Outcomes

VII. Clinical Prevention and Population Health for Improving the Nation's Health

VIII. Advanced Nursing Practice

(The American Association of Colleges of Nursing (AACN), The Essential, 2021.)

Scholarly Immersion Hours

A student must acquire a minimum of **1000** practicum hours to obtain a DNP degree. Therefore, 300 immersion/project hours will be obtained from the student's DNP project work and the NUR 890 course series (other immersion activities such as attending a conference, community engagement opportunities, scholarly presentations/publications). These hours must be recorded in **Medatrx** and students must indicate what sub-competencies the activity relates to.

Please use the [DNP Scholarly Project Hours and/or Immersion Hours Worksheet](#) to record and maintain your scholarly immersion hours, prior to recording them into Medatrx.

DNP Project

Although DNP projects are *not* considered research, but quality improvement or evidence-based practice projects must follow research guidelines of the SON Research Office and the University's Office of Research Integrity as well as IRB approval from the site.

DNP Projects are designed for DNP students to immerse themselves in a specific nursing/health care problem or topic of interest and use the knowledge and skills gained during their coursework and clinical experience in designing and completing the DNP project. The student designs a project by carefully identifying the problem, reviewing relevant literature, identifying the purpose and aims, developing a methodological approach and analytic plan, and conducting the project in collaboration with your DNP Project Advisor and the on-site mentor. Your end results should suggest recommendations for practice and, if appropriate, future research. The student formally disseminates the results of the DNP Project by the end of the third year in a scholarly paper, detailed case study, and/or a poster presentation.

The 890 series will provide more details regarding the DNP Project. The DNP project spans three semesters (890A, 890B, & 890C), during which DNP Project Advisors will collaborate closely with students to guide them through the development, implementation, and completion stages.

The DNP Projects are guided by a Project Team which will consist of the DNP students, the DNP Project Advisor, and a Site Champion or Supporter (often from outside the University and may be the contact person at the site of the project or an expert in some area of the project). Once a potential site is identified by the student it must be approved by the student's DNP Project Advisor or course faculty of 890A. A site support letter for the project is required...on-site letterhead with an original signature.

The graduate process requires an updated plan of study showing all courses completed including grades, and a Graduate School Doctoral Degree Certification & Audit form prior to expected graduation date. The DNP Administrative Support Specialist will initiate this review and will contact the student for assistance with signatures and updated information. Completed forms will be reviewed and signed by the DNP Program Director and sent to the Graduate School.

UNCG Institutional Review Board (IRB)

The UNCG Institutional Review Board (IRB) must review and approve DNP projects **prior to** the beginning of the project. If your site requires IRB approval, then that must be obtained prior to submitting to the UNCG IRB. The IRB must also review and approve all revisions, modifications, or amendments to project protocols before any changes are implemented. This is an online application on the University OIT IRB website. Information, forms, and procedures are also on the IRB website: <http://integrity.uncg.edu/>. (Also see <https://integrity.uncg.edu/institutional-review-board/> for more details on IRB procedures and forms.)

Scientific Integrity

Ensuring Scientific Integrity is expected by all students, staff, and faculty members. This includes the appropriate conduct of studies, protection of human subjects, financial disclosure, conflict of interest, storage and use of data, and authorship and ownership issues. SON Guidelines for Authorship and ownership are discussed in a later section. Additional federal and UNCG policies apply as noted throughout this section and on the UNCG website. Additional oversight is provided by various School and University committees, as well as funding and state or federal agencies.

Data Safety Monitoring

The UNCG Compliance Officer coordinates Data Safety Monitoring. The UNCG IRB and the SON Research and Scholarship Committee assist with safety and compliance monitoring to ensure adherence to approved DNP project procedures and consent procedures, security of data, protection of subject confidentiality, and provision of appropriate protections to subjects.

Authorship & Ownership

These guidelines are to assist faculty, students, staff, and other persons in the assurance that credit and acknowledgement of effort and responsibility for DNP projects, research, scholarship, and creative activity, especially for funding, publications, and patents, are appropriately assigned.

DNP projects, scholarship, and creative activities are becoming an increasingly collaborative activity with both faculty, staff, students, consultants, and agency personnel involved in the initiation, conduct, and evaluation of projects. The dissemination and legal ownership should also reflect such collaboration.

Several published guides that provide insight into decisions of authorship and ownership can be reviewed here: [For Authors: Copyright and Scholarly Communication](#).

Publication Credit

Authorship is reserved for persons who receive primary credit and hold primary responsibility for a published work. This encompasses not only those who do the writing, but who made substantial scientific contributions to the DNP project. Substantial contributions may include formulating the problem or hypothesis, structuring the design, organizing and conducting the statistical analysis, interpreting the results, or writing a major portion of the paper. Those who contributed in ways such as suggesting or advising about analysis, collecting or entering data, modifying or structuring computer programs, and recruiting participants, or obtaining access to data or animals may not be listed as authors. However, combinations of these and other tasks may constitute or justify authorship.

Adult/Gerontological Primary Care Nurse Practitioner Concentration Post-Baccalaureate (AGPCNP)

Dr. Autumn Henson, DNP, APRN, GNP-BC, WCC
Program Director of Nurse Practitioner Programs
Assistant Clinical Professor

Email: anhenson@uncg.edu

Office Phone: 336-315-7412

Union Square Campus, Room 254N
124 East Gate City Boulevard
Greensboro, NC 27406

[Access the AGPCNP program's Plans of Study here.](#)

The Post-BSN DNP Adult/Gerontological Primary Care Nurse Practitioner (AGPCNP) concentration is for individuals with a minimum of a BSN who wish to advance their career and practice in the outpatient setting with patients ranging in age from adolescents (12-year-olds) to older adults.

The Post-BSN DNP Adult/Gerontological Primary Care Nurse Practitioner (AGPCNP) concentration is designed to be completed in 3 years (8 semesters) beginning in the fall semester and ending in the spring semester of the third year. The concentration requires a minimum of 68 credits, 780 to 840 clinical/practicum hours. Clinical/Practicum hours must be completed in the semester when the competencies are mastered. Therefore, front-loading of clinical hours prior to the scheduled coursework is prohibited. "Front-loading" is described as completing a large portion of the clinical hours before or at the beginning of the semester. We secure clinical placements at a variety of facilities. See [Clinical Section](#) above.

Students may request an individual National Provider Identifier (NPI) number for billing at any point in time during the program. An NPI number is required to receive funding or stipends.

Graduates will have the option to take one of the two National Board Certifications for Adult-Gerontology Primary Care Nurse Practitioner Certification: [ANCC](#) or [AANPCB](#)

Nurse Anesthesia Concentration Post-Baccalaureate (SRNA)

Dr. Linda Stone, DNP, CRNA
Program Administrator/Concentration Coordinator

Email: lstone@uncg.edu
Office Phone: 336-315-7440

Union Square Campus, Room 354P
124 East Gate City Boulevard
Greensboro, NC 27406

[Access Nurse Anesthesia program's Plan of Study here.](#)

The Nurse Anesthesia concentration is designed to be completed in 9 semesters beginning in the fall semester and ending in the summer of the third year. In 2024 the entry and exit for this plan of study moved to May. The concentration requires a minimum of 107 credits and 3,060 advanced practice clinical hours. All students must log completion of a minimum of an additional 300 hours of work on the DNP project/immersion activities based on the AACN Essentials using the [DNP Scholarly Project Hours and/or Immersion Hours Worksheet](#). These hours may come from meetings with project sites, publications and/or presentations, as well as interprofessional and health policy activities. These hours must be recorded in Medatrax. More details will be available in your NUR 890 course series. These hours must be verified by your DNP Advisor, faculty of the course, and Site Champion/Supporter.

All degree requirements must be met within seven academic years of initial enrollment. In addition to courses required for the degree program, students may enroll in independent study courses to enhance their program of study. No foreign language is required.

The COA requires nurse anesthesia students to adhere to additional guidelines. To view additional guidelines; [click here to access the Nurse Anesthesia handbook.](#)

In addition to UNCG's Student Code of Conduct, Nurse Anesthesia students must also adhere to the [American Association of Nurse Anesthesiology \(AANA\) Code of Ethics for CRNAs.](#)

For Advanced Nursing Clinical Programs (FNP, AGPCNP & Nurse Anesthesia only). The student Progression Policy related to failure of a course, can be found at this link [Clinical Graduate Nursing Programs Student Progression Policy.](#)

Post-Master's DNP Concentration Developing Practice and Systems Leaders

Dr. Wanda Williams, PhD, RN, MSN, WHNP-BC, CNE, ANEF
Director of Graduate Practice Programs

Email: wmwilliams@uncg.edu
Office Phone: 336-334-3431

Union Square Campus, Room 254P
124 East Gate City Boulevard
Greensboro, NC 27406

[Access the Post-Master's DNP program's Plans of Study here.](#)

The Post-Master's DNP is designed to be completed in 4-semesters beginning in the fall semester and ending in the Fall semester of the next year.

The Post-Master's DNP requires a minimum of 30 credits and 1,000 advanced practice hours. All Post-Master's DNP students must graduate with a minimum of 1000 practicum/immersion hours. The 1,000 hours are obtained by combining the clinical hours obtained in a person's previous master's program plus the 300 hours obtained from the student's DNP scholarly project hours and/or immersion hours. Students needing more hours upon admission to the Post-Master's DNP program will need to register for NUR 789.

Students with an MSN in Nursing Administration (or equivalent degree) will be awarded 700 practicum hours as credit for documented Nurse Executive certification they have earned (certification must be current) from ANCC or AONL (e.g., NE-BC, NEA-BC, Executive Nursing Practice). Information about qualifications for these hours and how to document the accepted National Certifications can be found in the [DNP Practice/Immersion Hours Policy](#).

All students still must complete 300 scholarly project/immersion hours to complete their DNP degree (for example: if a student enters the program with more than 1,000 hours from their MSN program, they still must complete 300 DNP scholarly project hours and/or immersion hours to complete their DNP degree.)

The 300 hours associated with the DNP project hours and/or immersion hours must be recorded in Medatrax. All scholarly activities related to immersion hours must be recorded using the [DNP Scholarly Project Hours and/or Immersion Hour Worksheet](#).

NUR 789 Doctor of Nursing Practice Advanced Practicum (1-6)

Post-masters DNP students who lack the required practicum hours upon admission to the Post-master DNP program will be required to register for NUR 789.

All degree requirements must be met within **seven academic years** of initial enrollment.

Off-Site Building Information

Union Square Campus *(for MSN-FNP, DNP-AGNP & DNP-SRNA only)*

All campus classes are held at the Union Square Campus (USC) unless special circumstances intervene. Parking does not currently require a tag or cost, but some days overflow to the church parking lot across the street on the east side may be necessary for students and faculty. The back side of that lot on Arlington St. can be used except Sundays and Wednesday nights. Access is by walking through the small park adjacent to the USC building. All students are advised to exercise precautions and go to their cars in groups, especially after dark.

Network Access to Internet

We STRONGLY encourage students to use EDUROAM for all devices. If too many people are on the USC guest access, the system will crash due to lower bandwidth.

Building Hours

Building hours at USC are from 7am - 8pm, Monday - Friday. Notify the security desk if you plan to be in the building past 7pm. Entry is only by two front doors on the east and west sides of the building. Do not block open doors nor let people in the back doors.

If you have questions or IT needs, the building staff information is posted throughout the building, and they are available to assist you. Mrs. Akila Hardy-Cole is the UNCG staff person assigned to USC and the DNP program (Room 254Q).

Union Square Campus Building Rules

1. **NO food or drink in any clinical laboratory or simulation spaces (This includes the debrief rooms.) NO EXCEPTIONS!!!**
2. Limited food (non-spill/non-greasy) and drink (hard covered) are allowed in classroom spaces.
3. Each school/agency is to inform all persons of these policies and assist with enforcement.
4. It is the responsibility of faculty and students to straighten clinical laboratory, classroom, and other spaces after use; clean any spills, and place refuse, trash, and hazardous waste in the appropriate containers. Furniture rearranged for class/meeting should be returned to the original set-up and should not be moved from one room to another.
5. Each agency or school will determine access and key distribution for their faculty and staff. Not all faculty and staff will receive keys.
6. You are not to share your keys with anyone, and you are not to make copies. If keys are lost, you may have to pay for replacement of locks. The Union Square management staff will have papers for you to sign to receive your keys. Please take your appropriate school or agency ID with you to pick up your keys.
7. Please make sure you keep all spaces locked when not in use.
8. Lock your valuables in the offices. There are ample filing cabinets and locked drawers for course faculty.
9. Students should keep valuables with them or in the lockers.
10. NO students are allowed in the faculty conference room or faculty lounge per agreement of all lease agencies and schools.
11. Student study, lounge, and eating facilities (vending, microwaves, coffee, etc.) are on the East front of the building's first floor. A refrigerator is in the first-floor space, open to all, and emptied (all things thrown away) at 2pm on Fridays.
12. Students needing use of AV equipment in the classrooms (i.e., study groups/presentations) should contact their instructor or IT staff for set-up.

****The building is used by many agencies and schools for classes, workshops, and testing during the day and evening. Please inform students of the need to maintain appropriate decorum and noise levels, care of furniture and equipment, and appropriate disposal of hazardous waste and trash.**

****This building cannot be used for business purposes outside of the schools' and agencies' leasing agreements.**

****NOTE: There are fire alarms and bathrooms throughout the facility.**
